QUO VADIS.

The Great Drama to be Produced Here March 20th.

E. J. Carpenter's grand scenic production of "Quo Vadis," than which no greater success has ever been accorded a dramatic representation, will be the attraction at opera house Thursday evening, March 20th. The stage will be cleared of all scenery belonging to the house, to make room for special sets, draperies, perfect copies of furniture, utensils, etc., in use at that period of the Roman Empire. The costumes are historically correct, and the company is a large and well balanced one.

The scenery displayed in the production consists principally of the Peristyle in the house of Petronius, the Statue Scene, the Garden of Aulus Plautius, Nero's Palace, Rome; interior of the Mar- buy. mertine Prison, the Coliseum, the 2 cans of corn and 1 2lb can o Roman Amphitheatre and Arena; the Burning and Destruction of Rome, and the Death of Nero, the Sign of the Cross and the Dawn | 1 can sweet potatoes 10c. of Christianity. While the theme of the play deals principally with a sombre subject, the wit of Petronius and Chilo, the Greek Philosopher, together with the overweening vanity of Nero, causes much amusement.

"The Burning of Rome" is the most stupendous scenic effect ever produced, while the scene in which Lygia is rescued from the bull is made thrillingly realistic by the introduction of the entire arena the only company on the road which presents this incident and it has created a furor.

BLESSINGS ON MY LITTLE MAN

He is chief of all his clan. Not many boys, since time began, Could easily match with mine.

His laughing eyes so purely bright, Reflect the heaven's azure light. His cheeks love's kisses oft invite, Oh, roguish boy of mine.

His dimpled arms and hands so small, That some sweet day will toss the ball, Now, soft as downy snow-flakes, fall, Within this hand of mine.

His sturdy legs and cunning toes, Just peeping out beneath his clothes, Would match the pink of yonder rose-Oh, rare, sweet boy of mine!

His hair has caught the golden rays, The sunshine of autumnal days, When fields of wheat and ripened maize, Make glad this heart of mine.

I could not tell you all his charms: His soft embrace my spirit warms-A loving boy is mine.

EVEN UNTO DEATH.

BY JACK LONDON,

(Copyright, 1900, by Daily Story Pub. Co.) It might have been due to mere coincidence, it might have been because there are undreamed-of bonds between the quick and the dead, and it might have been that Bat Morganston felt a blind consciousness of the future, when he turned suddenly to Frona Payne and asked: "Even unto

Frona Payne was startled for the moment. Her shallow nature would not permit her to understand the strength of a strong man's love; such things had no place in her fickle enough to repress her inclination to her serious child's eyes, placing a hand on each brawny shoulder, and answered: "Even unto death, Bat, dear."

And as he crushed her to him, halfdoubting, he passionately cried: "If shall come between!"

"How absurd," she thought as she freed herself and watched him untangling his dogs. And a handsome fellow he was as he waded among the fierce brutes, pulling here and shovfrozen traces till the team stood clear. Nipped by the intense cold to a tender pink, his smooth-shaven face told a plain tale of strength and indomitability. His hair, falling about his shoulders in thick masses of silky brown, was probably more responsible for winning the woman's fleeting affections than all the rest of him put together. Yet when men ran their eyes up and down his six foot two of brawn, they declared him a man, from his beaded moccasins to the crown of his wolf-skin cap. But then, they were men.

She kissed him once, twice, and yet on his journey down the Yukon to Forty Mile. Down there he was acyears he had spent in the darkness of the arctic circle. Dawson had no claims upon him. He did not own a foot of gravel in the district, nor was he smitten with its inhabitants-the che-cha-quas that had rushed in like jackals and spoiled the good old times men were men and every man a brother. In fact, the only reason for his presence, and a most unstable one at that, was Frona. He had harnessed his dogs and run up on the ice to renew the pledges of the previous summer, and to plead for an early date. Well, they were to be married in June, and he was returning to the management of his mines with a light heart. June!-the clean-up promised to be rich; he would sell out; and then, the States, Paris, the world! Of course! leave a pretty woman behind-; but journey to the sea was long. ere he had reached Forty Mile he no longer mistrusted, and by the time he froze his lungs on a moose-hunt and died a month later, he had attained a state of blissful optimism.

Frona waved him good-by, and also with a light heart, turned back to her father's cabin; but then, she had no so this box was piled precariously air, for parades, concerts, public celedoubts at all. AN UNEXPECTED VISIT. Rescurceful Student Took Advantage of

President's Grammatical Error.

Some one has said that "tact is mere facility in having pictures of one's relatives set out in sight whenever they call and out of sight when everyone else calls." This practice of expert manipulation, says the New York Independent, must be carried out in many more particulars in case of calls from professors on students in their rooms. The only member of our faculty who ever made such calls on us was Prexie. Prexie was a mild man, but fastidious and critical. Consequently, his anticipated visits were occasions for what Aunt Chloe would have called "A bustlin', clearin'-up

Such clearing-up meant that certain articles of dress-and undressmust be gathered from the floor, ornawarning. But, alas! too often this forts to move the obstinate guits few seconds that elapsed between a tee, he was tempted to indulge in wand of rapping on the door outside

and the normal echo of "Come in." Because that fun for others went along with such confusion for one man, false warnings were given sometimes and thereby tricks were played. They could not be played twice, however, on the same man, for, once deceived, he was deluctant ever to take a real warning. This reluctance often was productive of as much fun as prompt acquiescence, for if a real visitor got in at such a time he found the real scene.

A gentle rap came on the door outside and Bob called out: "Who's there?" A voice outside replied: "It's me, the president." Bob remained seated and called out: "Aw, go 'way, you bungling blunderer. Where's your grammar? Been in college four years not to know good English? Prexie would have said: 'It is I.' " Two statements bring the narrative to an abrupt conclusion; first. the person did go away without entering; secondly, it was the president.

DISTURBING THE PEACE.

College Boys Fell Into Their Own Trap -Story of a Banquet.

Some of the weirdest and most ravishing delights of any college man are memories of life in his fraternity, says a writer in the New York Independent. These Greek letter secret societies were Greek only in that each bore a name in two or three letters of that language; they were secret only in particulars which are trifling to look back upon. In every college there are, never one, but always two, of these societies that hold, or try to hold, the lead, and the fight for dominance becomes a precious pastime.

In the spring, "when a young man's fancy" and all that, our chief perplexity became our rival's popularity with certain of the ladies. They had in their number several musicians, and they had a way of serenading which was so enticing that we all grew green with envy. Their custom was to go in company to one after another of the fair ones' windows, render there their tribute, and leave at each house a combination card with all their names.

One day Ted Worthington, walking into one Phi Psi's room, found lying on the table a memorandum of western Texas, that it had never been | six addresses where they meant to ed quickly he could obtain possession. ing and came off. "Zigler's" was a restaurant kept by a worthy German who knew all of us for college boys, but did not know, nor care to know, one from the other. We had contracted with him to have a banquet ready for 14 of us at 12 o'clock. At ten o'clock, while we were still in our hall, two Phi Psi's walked in, and, representing themselves as a committee, asked what time the boys had ordered supper. Twelve o'clock. "Well, we have changed our plans and-Can't we have it at 11 o'clock?" "Zig" bustled round and wrought the miracle and at 11 o'clock 14 men filed in, ate up everything and at five minutes before 12 dispersed. When we arrived it was to find the empty plates, "Zig's" blank surprise and, incidentally, his bill for \$27.

Now, every man, who by mischance or deliberate intent has entered its doors, has his own notions of the meaning of its name; the fact, however, remains that it is there, and that it is regularly patronized by individuals of a certain or uncertain class, as they pass to and fro through the gateway of the further east. This in itself is strange, inasmuch as it is said that the proprietor rakes in the dollars by selling liquor that is as bad as it can possibly be, in order that he may get back to Lisbon before he receives that threatened knife thrust between the ribs which has been promised him so long. There are times, as I am unfortunately able to testify, when the latter possibility is not so remote as might be expected. Taken altogether, however, the Hotel of the Three Desires is an excellent place to take up one's abode, provided one is not desirous of attracting too much attention in the city. Paddy has no high pedigree, but he is perhaps as high in the favor of milady as the two canines, due in a measure to the old love which milady bore to Paddy's grandmother, who loved to romp and play when she was

Paddy and the French bulldogs have peculiarities, and that is the reason this story is written.

Paddy does not encroach upon the territory of the bulldogs, and the latter do not invade Paddy's bailiwick, but there is neutral ground. The neutral ground is the first floor of milady's home. Paddy rules the basement and the subcellar; the dogs have the bedrooms. They sleep on the beds and sofas and chairs in the daytime, much to the disgust of the

The interesting time comes when Hotel de l'Europe, whose virtues I Manuel rubbed his greasy hands toplays selections from the masters. The lively melodies set the tails of the French bulldogs in a whirl. The tails spin numerous circles as the music rolls forth. The dogs are in ecstacy.

But with Paddy it is a different tale. The most beautiful opera will cause him to hump his back and jump around in great annoyance. He rushes down into the basement, and then into the subcellar, where he offers thanks for the relief from what seems to his cat soul the worst kind of discord. Better far is the wailing of himself and the others of his ilk on the back fences o' nights.

All of which proves the old, old story that what is food for some is poison for others.

Dr. Paris, chairman of the local board of health, made his final report to the State board last week. and received the following from the Secretary of the State board:

DEAR DR. PARIS: You have managed your smallpox and vaccination bravely. I approve your entire policy very heartily.

Very respectfully, J. N. McCormack.

Dr. Paris was untiring in his efforts to check the disease, and the compliment paid him by the State Board is well merited and richly deserved.

A CARD,

To the Citizens of Marion and Crittenden County:

As a member of the Board of Health I wish to make a short. personal statement of my steward. | Croft farm. ship while doing battle for the people in our late lamentable epidemic of smallpox

First, I wish to say that I did not seek an appointment as a mem ber of the Board of Health. The leg. appointment came to me unsolicited and was reluctantly accepted. and in this acceptance I realized that it was an ungrateful office, with but little remuneration, yet the citizens of our county, for there is nothing as needful and as much sought for as good health.

I wish to announce that there is not at this writing a case of smallpox in our county, and had it not been for the vigilance of the health officers one half of our population would have been infected. We have had sixty-two cases of smallseven vaccinated persons quaran- ter. tined in the house with smallpox, ten of which had fever and masix escaped entirely; of this num- so. ber fifteen were vaccinated after The telephone men passed down last they had been exposed to the disease. Not one death occurred from smallpox during this epidemic, which fact is very gratifying

to us, yet many suffered untold

agonies of body and mind. The people who were quarantined generally submitted very grace fully to the inevitable, and we as members of the Board of Health used every endeavor to lighten the burden, soothe the troubled minds and make them as pleasant in their unpleasantness as circumstances would admit. Never was there a time when any friction or discord marred the proceedings of the Board. Dr. Paris, who is health officer for the county, always counseled and sought the advice of his colleagues. Mr. Blue in his own gentlemanly way, was always ready to shoulder any responsibility that came his way, and taken all in all we have many pleasant memories of the tempestuous days, when smallpox was making life miserable for our quiet, God fearing, liberty loving christian peo-

To the members of the medical profession I wish to express my heartfelt thanks for the manly stand they took in this epidemic, for the honorable way in which they helped to hold up the hands of the health authorities.

To the county officials and to our efficient city marshal I wish to express my thanks to the manly way they assisted us: and to the citizens who stood by us in our efforts to stamp out this loathsome malady I wish to say there will ever be sweet recollections for them. The average mind has but little idea of how our souls have been tried, and what an effort it took to control that disposition we inherited from Adam.

To they that "reviled and persecuted" us we have the kindest feeling, and pity rather than blame been a labor of love. It has not many are bereaved. been for personal remuneration, but it has been for the "most good ville, was called to see S. H. Cassidy tic profits, going fast and coming in fast for the most people," and it will last week. ever be my ambition in the future to look at life in a broad and libe- the Dycusburg & Kuttawa mail route ral way, and do the things I believe to be the best for the citizens of our community.
